

GRAVISTA

Featuring 3-in-1 insect control with an adulticide, an insect growth regulator (IGR) and a synergist, Gravista Insecticide kills labeled insects and breaks their life cycles. Gravista Insecticide can be diluted with water or oil and can be applied directly on the grain stream or as an empty-bin and warehouse treatment.

FEATURES

- Long-term residual control
- On-grain, empty-bin and perimeter treatment
- For use on wheat, corn, rice, and other labeled grains and seeds
- Water, oil, and dust-controlling oils dilutable formulation

BENEFITS

- 3-in-1 combination eliminates labor intensive tank-mixing
- Effective on tough-to-control stored product insect pests
- May be tank-mixed with other products, such as Pyronyl Crop Spray
- Reduced infestation rebound and subsequent costly retreatments

APPLICATION METHODS

- Apply directly to grain stream
- Apply as empty-bin treatment
- Apply as a barrier perimeter treatment
- Refer to label for application rates

TARGET INSECTS

Indian meal moth, sawtoothed grain beetle, red flour beetle, rice weevil, maize weevil, lesser grain borer, and other pests.

ACTIVE INGREDIENTS

- Deltamethrin 1.20%
- Piperonyl Butoxide 33.30%
- (S)-Methoprene 2.85%

SAFE • EFFECTIVE
