

# Pyronyl™ Crop Spray

A highly concentrated pyrethrin insecticide. It features a high ratio of active ingredients to synergist for the flushing and rapid knockdown of multiple stored product insects. Use it alone or tank-mixed with Diacon® IGR and Centynal™ Insecticide as an effective tool for applications in and around stored grain facilities.

## FEATURES

- Treats adult stages of insects
- Can be diluted with water
- Ideal tank-mix partner
- Non-corrosive formulation
- Can be tank-mixed with Diacon® IGR and Centynal™ Insecticide
- Pyrethrins act as a sodium channel blocker and PBO as cytochrome enzyme inhibitor
- For use as a grain and seed protectant
- For use on almonds, peanuts and walnuts in bulk or in bags
- For use in storage sites

## BENEFITS

- For control of insect infestations in grain and seed storage sites, warehouse bins, mills, elevators, farms, and transportation vehicles (trucks, planes, cargo ships).
- Ideal for large volume ULV and liquid applications

## APPLICATION METHODS

- Incorporate into grain stream as it goes into elevator
- Surface treatment of stored grain and seed
- For use as a surface spray or as a space spray

## TARGET INSECTS

Confused flour beetle, granary weevil, Indian meal moth, lesser grain borer, rice weevil, saw-toothed grain beetle

## ACTIVE INGREDIENTS

- Pyrethrins (6%)
- Piperonyl Butoxide (PBO), Technical (60%)

# SAFE • EFFECTIVE
